Laxative

BY IMPURITIES IN THE BLOOD

Every Old Sore is an outside symptom of a weak or polluted condition of the bloodthe external evidence of physical impurity. If they were due to outside influences, or if the cause was confined strictly to the diseased flesh around the ulcer, then local treatment and simple cleanliness would cure them. But the foundation of the trouble is in the blood, which has from some cause become unhealthy and diseased, and is keeping the sore or ulcer open by continually discharging into it the impurities with which it is filled.

This impure condition of the blood may be the remains of some constitutional trouble; the effect of a long spell of sickness, which has left the circulation weak and germ-infected, or because the natural waste and refuse matter of the body, which should pass off through the proper channels, has been left in the system to ferment and decay

and be absorbed into the blood. Again the cause may be hereditary, the polluted blood of ancestry being handed down to posterity; but it does not matter how the trouble became entrenched in the blood, the fact that the sore will not heal is evidence of its deep, underlying cause, and shows the absolute necessity for the very best constitutional treatment.

There is nothing that causes more discomfort and worry than a festering, discharging old sore, as it lingers, slowly eating into the surrounding tissues and flesh, and by its obstinacy and tendency to grow worse, in every way suggesting

the possibility of being cancerous in its nature; for there is no difference at first in the appearance of a cancerous and a common ulcer, and any sore that persistently refuses to heal may degenerate into Cancer if the blood is not purified of the poisons.

Salves, washes, lotions, etc., cannot effect a cure of an obstinate sore or ulcer. Such treatment may assist in keeping the place clean and antiseptic, but it does not reach the blood where the real cause is located, and can therefore have no permanent good effect.

It removes every particle of impurity from the circulation and makes this life-stream pure, fresh and health-sustaining.
